

Postgraduate Taught Experience Survey (PTES)

PTES is the only UK higher education sector-wide survey to gain insight from taught postgraduate students about their learning and teaching experience.

The questions of particular interest to Computing and Library Services (CLS) which give us an insight of how you perceive the services we are responsible for providing are:

There is appropriate access to physical library resources and facilities

There is appropriate access to online library resources

There is appropriate access to IT resources and facilities when I am on-campus

I have been able to access subject specific resources (for example: equipment, facilities, software, materials) necessary for my students when I am on-campus (CLS have a shared responsibility with your academic school for performance in this area).

I have been able to access subject specific resources (for example: course materials, software, virtual learning environment) necessary for my studies when I am learning remotely (CLS have a shared responsibility with your academic school for performance in this area).

The support for using IT and accessing resources meets my needs (for example, support with accessing online journals and e-books, using digital learning tools/apps)

We were incredibly pleased to learn that you rated our performance strongly in the most recent PTES survey in 2022.

	University of Huddersfield Result
Physical library resources and facilities	94.1
Online library resources	93.6
IT resources and facilities	90.4
Subject specific resources (on-campus)	89.3
Subject specific resources (remote)	88.4
Support for IT and accessing resources	80.1
