Section 2

DATA PROTECTION ACT 1998

1. The University needs to process data about you that relates to your being a student of the University subject to its regulations, policies and procedures. For example, the University will create and maintain your student record which includes data concerning your basic biographical details, admission to the University, your course of study and your academic results. Such processing will be in accordance with the Data Protection Act 1998 (full text at http://www.legislation.gov.uk/ukpga/1998/29) and with the University’s Data Protection Policy.

The Act concerns the processing of personal data and sensitive personal data relating to individuals, including the holding, use and disclosure of such information. The University complies with those provisions to ensure that data about you is processed fairly, and a description of the types of processing it undertakes can be found by searching the public register of data controllers available from http://www.ico.gov.uk/tools_and_resources/register_of_datacontrollers.aspx.

2. The processing of some data is required so that the University can fulfil its obligations to third parties such as the Higher Education Funding Council for England (HEFCE) and student loan companies, together with other relevant bodies or individuals.

3. The processing of some data may be undertaken on the University’s behalf by an organisation contracted for that purpose. Such organisations will be bound by an obligation to process data in accordance with the Data Protection Act and any specific contractual arrangements with the University. The minimum personal information necessary for the fulfilling of that contract will be passed on. These organisations include (but are not necessarily limited to):

   i) Microsoft Live@edu, for the provision of your University email account;

   ii) for students studying at partner institutions, the partner institution itself;

   iii) iParadigms, which provides Turnitin UK plagiarism detection service. Information for students about the service is available from http://www.plagiarismadvice.org

   Students agree that where services including Turnitin and Grademark are used as part of their course that all required papers may be subject to submission for textual similarity review to iParadigms for the detection of plagiarism. All submitted papers will be included as source documents in the iParadigms reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin UK service shall be subject to such
Terms and Conditions of Use as may be agreed between iParadigms and the University from time to time and posted at http://submit.ac.uk.

You might be included in a sample of leavers who are surveyed again a few years after they graduate. If so, we will pass your contact details to the organisation that has been contracted to carry out that survey. That organisation will use your details only for that purpose, and will then delete them. (If you do not want to take part in this second survey, please let us know.)

vi) When you search for and/or access bibliographic resources such as journal articles, your request may be routed through the UK OpenURL Router Service (openurl.ac.uk), which is administered by EDINA at the University of Edinburgh. The aggregation is used as the basis of services for users in UK HE and is made available to the public so that others may use it as the basis of services. The aggregation contains no information that could identify you as an individual.

This may result in information being published and released to other approved users, including academic researchers and commercial organisations. Your record will not be used in a way that could affect you personally and the organisations will take precautions to reduce the risk of you being identified from the information once it is published and released.
