

MyReading

Aims of the project

- Ensure students have access to essential reading materials and are aware of further reading
- Provide clear, accurate and current reading lists
- Provide a tool for academic staff to manage their own reading lists
- Ensure the reading list is an essential tool in informing the provision of library information resources
- Integrate the reading list in to the library acquisitions process, in order to streamline workflows
- Ensure the best use of resources, be they financial, staff or material
- Standardise the submission of reading lists across the University
