The new Staff E-mail system

- New HP DL380 G7 servers in Data Centres 1 and 2 for resilience.
- New HP 2000 iSCSI storage for VMs and Mailbox storage.
- Uses Microsoft’s Hyper-V virtualisation technology.
- New Windows 2008 R2 and Exchange 2010 e-mail software.
- All new Outlook Web App for full premium access on all platforms and web browsers.
- Uses resilient Database Access Groups for automatic failover of database between servers and Data Centres.
- Compatible with Outlook 2003 or later on PCs, Outlook 2011 on Mac.
- Outlook, IMAP, POP3, SMTP and ActiveSync services available.
- Unified Messaging available for Voicemail and Lync 2010 instant messaging services.
