Use University software on your computer or tablet...ANYWHERE!

Students
Work 24/7 using University software on your own computer. Whether you are on campus or using the wireless network. A trial is currently underway in ADA, MHM and C&E to provide remote access to physical computers with specialist software.

Staff
UniDesktop for staff provides off campus access to Agresso, ASIS, Outlook and your storage drives, as well as all the standard staff desktop software. UniDesktop will replace mobile desktop.

Mobile
UniDesktop is available on desktop, laptop or tablet devices. Connectors and Apps for UniDesktop are available for Windows, Mac OS, Android and Apple iOS.
